

INFLATABLE SET UP AND TAKE-DOWN INSTRUCTIONS

****Loading and unloading will require 2 people****

How to Set-up

1. Check ground for a flat level surface void of any rocks, sticks, pinecones, etc. (Anything that may damage the bottom of the Inflatable). Also check height clearance for trees, power lines, or overhead obstructions. Tarps should be placed underneath all inflatables before proceeding to the next step.
2. Unroll the inflatable in the direction you wish the entrance to the Inflatable to face.
3. Completely unfold the inflatable and attach the blower(s) to the "Port" (extended air hose / blower tube). The "Port" is in the very back of the Inflatable. Tie off any additional Ports with the straps provided.
4. Close All Velcro / Zipper compartments, if they exist.
5. Attach heavy extension cord(s) from power source. The Extension cord gets plugged into the Alarm and the Blower gets plugged into the Alarm. Use one 110-volt Outlet for the blower. Use 14 gauge or heavier extension cord(s) that extends no more than 100 feet from the inflatable to the power source. (The lower the gauge number, the thicker the Cord. Most household / garden extension cords are 16 gauge and are not adequate.)
6. Check to make sure the port (air hose) leading to the blower is not twisted.
7. Turn the Power on by the on/off switch located on the blower.
8. While inflating, check to make sure no air is escaping from vents or ports.
9. Secure the inflatable by staking the unit on all 4 corners. Drive stakes halfway in at a 45-degree angle away from the inflatable. For taller inflatables tie-outs will need to be staked.

Safety Instructions / Operation

1. Adult supervision is required at all Times. **NEVER** leave the inflatable unattended or unwatched.
2. Guests MUST remove shoes, pocket items, glasses, jewelry, etc.
3. Diving and flipping are strictly prohibited. No back flips, roughhousing, horseplay or bouncing against walls. Guests should not take unnecessary risks.
4. No food, drink, or gum on or in the inflatables.

*The Inflatable should not be operated if winds exceed 20 mph.

*The Inflatable should not be used in rain or lightning conditions.

Spot / Quick Clean

Do not use any cleaning liquids / agents Check for any loose items left on the inflatable.

Prevention is the first method for cleaning. A tarp or piece of outdoor carpet, etc., can be placed at the entrance to trap dirt and debris. Make sure it is properly secured, and no trip hazards exist.

Using a soft bristle broom, sweep everything to the outside walls and then to the corners or exit where you can sweep it to the outside. A vacuum may be used. If necessary, a damp mop with water only can be used for liquid spills.

How to Take down

1. All guests should be completely clear of inflatable, stakes, blower, alarm, etc.
2. Turn off or unplug blower. Disconnect the blower from the inflatable.
3. Open all velcro / zipper flaps, vents, and ports to allow air to escape and the inflatable to deflate. Deflation time varies on the inflatable. (10- 20 minutes is normal.)

How to Roll an Inflatable

The key to a 'good roll' is to fold the material neatly into the middle of the inflatable.

1. Fold all material toward the middle of the inflatable and find the bottom seams of the inflatable.
2. Fold sides in 2-3 feet lengthwise, Burrito Style or Trifold.
3. Continue to fold inflatable from the outside-in until folded layers overlap leaving a fold width of 2-3 feet.
4. Tuck in any extra material. (Leave ports out to allow air to escape as you roll.)
5. Remove shoes and walk air out of the inflatable by walking (without shoes) on the inflatable towards the port (blower tube). Doing so pushes air and allows air to escape.
6. Once the air is out, begin rolling from the furthest point away from the port (blower tube). Roll as tightly as possible. Keep the roll lined up, tuck any in extra material, and do not allow any part of the roll to sag. Loose rolls are difficult to move. Take your time and roll it tight.
7. Tuck in Ports (Blower tubes).
8. Secure rolled inflatable with ratchet strap.
